#### NO REVERSAL OF POLICY: CHAMBERLAIN

LONDON, July 17 (Reuter)—Questioned in the House of Commons regarding the Tokyo discussions, Mr. Chamberlain said that there had been many statements made in the press in both Japan and England to the effect that the Japanese Government would require a complete reversal of the policy of His Majesty's Government in the Far East as its condition for the opening of negotiations on the Tientsin issue.

Mr. Chamberlain added: :I should like to make it that this country would not so act in regard to its foreign policy at the demand of another Power Nor have His Majesty's Government received any such demands from the Japanese Government.

## Hitler's Echo In England

#### GIVE REICH FREE HAND": MOSLEY

LONDON, July 17 (Reuter)—Sir a secret mission. Oswald Mosley, the Fascist leader, addressed a gathering of his followers at Earl's Court last night. He spoke from a rostrum twenty feet

He said that he and his fellow-Fascists would fight for England if the country were attacked, but he asked that Germany be given a free hand in Eastern Europe. Mosley had to be protected by

police while he spoke, and a personal bodyguard attended him to and from the meeting. The German press this morning

headlined news of the assembly with such captions as British Commander-in-Chief, has issued troops in North China in 1901. Italy's interests in the zone are Masses Against Encirclement.

# JAPAN EXTENDS SCOPE BEYOND DISPUTE - "TIMES"

LONDON, July 17 (BWS)—The British Ambassador in Tokyo has communicated to London a report of his preliminary conversation on Saturday with the Japanese Foreign Minister. It had been anticipated that the conversation, which was arranged for the exclusive discussion of local issues at Tientsin, would be resumed to-day but press reports state the resumption has been postponed until Wednesday. Meanwhile, Sir Robert Craigie's report is under consideration in London.

#### EMBASSY DENIES TIENTSIN REPORT

SHANGHAI, July 17 (Reuter)-The British Embassy to-day officially denied the semi-official Japanese reports from Tlentsin alleging that British assistance is being given to Chinese guerillas around Tientsin.

Among the charges contained i the reports were, firstly that arms and ammunition were brought to the British Concession in Tientsin ostensibly for the British garrison but actually for the Chinese guerillas and secondly that the British Ambassador, Sir Archibald Clark-Kerr, after consulting with Generalissimo Chiang Kai-shek. had sent an agent to Tientsin on

Men Killed In Half Month CHUNGKING, July 17 (Central)—An official release to-day "claims that a total of 16,865. Japanese officers and men were killed by Chinese forces on the various fronts during the first half of July.

16,865 Japanese Officers,

In the period under review, Chinese and Japanese engaged in 236 combats. 'Spoils of war seized by the Chinese included 132 horses, 709 rifles, eight machine-guns, four field guns, and 4,420 rounds, of ammunition.

Twenty Japanese soldiers were taken captive by the Chinese. Heavy material losses suffered by the Japanese included 19 armoured cars and six naval vessels. A total length of 41 kilometres of rails behind Japanese lines was torn, and 147 kilometres of highway damaged."

#### "The Times" commentary on the subject says that Saturday's meeting appears to have been taken up by Mr. Arita's exposition of the "background" of the Tientsin dispute and Sir Robert Craigle's exploration by questions as to the extent of this region and

"There is clearly no reason why the British Government should oppose the desire of the Japanese to describe a background as fully as possible. But between listening to and recording the Japanese view and accepting it as a basis of discussion there is a great gulf fixed.

"If these explanations of the Japanese Army attitude towards British interests in northern China are explanations and no more they will doubtless be of value. If, on the other hand, they foreshadow an attempt to extend the negotiations beyond the scope of the Tientsin dispute it is impossible to foresee any result but a deadlock."

## Garrisons

TIENTSIN, July "17 (Int'l)—The Anglo-Japanese conversations in Tokyo have brought to the fore the critical tension in North China between Japan and the European Powers, whose rights are safeguarded by their respective garrisons here.

Britain, France, and America each have about 1,500 troops stationed in North China. The headquarters of these garrisons are located in Tientsin, while troops are stationed in the zone of Peiping. #### DENNIS COMPTON AND ARSENAL

LONDON-It is sometimes unwise to judge a player who hits the high spots very early in his sporting career. But nothing is surer than that Dennis Compton has come to stay in international cricket.

What will happen next year when he will almost certainly be wanted for the team to tour Australia? Well, it will be good news to cricket fans to hear that Arsenal will not stand in his way. Mr. George Allison, Arsenal manager, said about this the other day:- "Dennis is certainly playing for us in the coming season," he said. "We give him all facilities for playing cricket until the very end of the summer. But there has been no question raised of his going to India after the present season."

"If next year, it is felt that Dennis's presence in the Test side for Australia is essential for upholding British cricket prestige, I think I can say that Arsenal are not likely to take an obstructionist attitude."

PROMOTIONS TO CAPTAIN INCREASED

The increase in the establishment motions to captain in the midsummer list. There are 20, or five more than in the previous half-yearly batches mains graded as G.S.O '3rd Grade, since December, 1936, and seven or eight more than in those between 1933 and 1936, During the 12 years from 1921 to

1933 only 10 new captains were promoted" half-yearly. The selection zones were, if anything, more crowded then, so that it is safe to say that MASTER OF THE FLEET

Commander T. M. Brownrigg, late Commander of the Dockyard and King's Harbour Master at Singapore, has been appointed to H.M.S. Warspitc., flagship in the Mediterranean, as Master of the Fleet, in succession to Captain O. L. Gordon, M.V.O., promoted in the midsummer list. AT THE KING'S "Little Caesar" has tossed aside his automatics, softened his leer to a scholar's frown, abandon his chesty swagger. "Little Caesar" has reformed. At the King's Theatre, he cries: "I Am the Law." and then sets out to prove it.

In effect, Edward G. Robinson. is back the screen in an unusual, thrillingly dramatic tale of a oneman fight against racket terror. Organized crime grips a huge city. the police and the district attorney are powerless, and then a mildmannered law professor is made a special prosecutor. Suddenly aggressive. into an double-fisted dyname, hammering relentlessly at his foes. Edward G. Robinson's law, professor is a brilliant new addition to his roster of famous characterization.

Robinson is superb, and Otto Kruger contributes a faultless performance. Barbara O'Neil, as the star's tolerant spouse, is richly sympathetic. John Beal, seen as Kruger's unsuspecting son who becomes Robinson's aide, deserves congratulations for his excellent handling of emotional scenes, and Wendy Barrie, as Kruger's worldly-wise aide and sweetheart, plays a difficult role with deftness. "I Am the Law" holds special appeal for young and old, presenting as it does an absorbing melodrama crammed with thrilling entertainment.

According to the Government Health Bulletin No E-28, at least 50% of the adult population of the United States are being attacked by the disease known as Athlete's Foot
Usually the disease starts between the toes.
Little watery blisters form and the skin cracks and peels After a while the itching becomes intense and you feel as though you would like to scratch off all the skin.

Beware of It Spreading Often the disease travels all over the bottom of the feet. The soles of your feet become red and swollen. The skin also cracks and peels, and the itching becomes worse and worse.

Get rid of this disease as quickly as possible, because it is very contagious and it may go to your hands or even to the under arm or crotch of the hiost people who have Athlete's Foot have tried all kinds of remedies to cure it without success. Ordinary germicides, antiseptics, salve or ointments, seldom do any good.

Here's How to Treat It The germ that causes the disease is known as Tines Trichophyton. It buries itself deep in the tissues of the skin and is very hard to kill. A test made shows it takes 15 minutes of boiling to kill treating Athlete's Foot It is a liquid that penetrales and dries quickly You just paint the affected parts. #### this year's Spring manoeuvres. BATTLESHIP INSPECTED

Adml. Kusnetzoff then reviewed the entire Baltic Fleet, afterwards inspecting the battleship October Revolution, 23,256 tons.

I hear that the Russian naval mission which, headed by Adml. Isakoff, Vice-Commissar for Naval Affairs, spent eight months in the United States, is now on the way back to Moscow. Its object was to purchase

armour plate, machinery for making it, and other equipment for the new Russian dockyards. Three big battleships are to be built, in ac cordance with the Kremlin's decision to create a real battle fleet for the high seas.

The fact that the Mission stayed eight months in the United States would seem to show that it succeeded in placing contracts, not only, perhaps, for dockyard equipment, but also for the actual equipment of warships.

# Outlook In Agricultural-Machinery Industry

TO THE MAJORITY OF MANUFACTURERS of agricultural machinery 1938 was a comparatively prosperous year, though in many cases this was due mainly to a further extension of activities into the general engineering industries and to the receipt of substantial armanient orders. Farm mechanisation in this country continued to make progress during the year, though the total home demand was probably somewhat less than in 1937.

Exports of agricultural ma-! There was a sharp fall in British chinery showed quite a serious fall exports of agricultural machinery in 1938. Novertheless, the year saw from 29,479 tons, valued at 1,959,some important developments 0001, in 1937 to 19,365 tons, valued which it is hoped will tend to at 1,426,0001, in 1938. No further figures regarding the valued at 621,5471., in 1938. output of the industry are available since those contained in the Census of Production for 1935. The total value of the output of the industry, excluding the production of tractors, was 2,883,0001. compared with 2,620,000l, in 1934 and 2,210,0001, in 1933. The value of the output of tractors for "other 'than road haulage purposes' was 900,000l in 1935 and 498,000l in the previous year,

Since 1935 there is little doubt that the greatest progress has been made in the production of tractors, which were probably valued at about 1,500,000l in 1937 against possibly 3,000,000l. in the case of agricultural machinery other than tractors.

#### Total Imports

Total imports of agricultural machinery amounted to 15,022 tons valued at 1,130,0051., in 1938, compared with 17,835 tons, valued at 1,265,1331., in 1937. Of the 1938 total, tractors "not liable to motorcar duty on 'importation" accounted for 6,094 tons, valued a 571,8791, compared with 7,411 tons valued at 649,4581.

# Hydraulic Turbines And Water-Wheels In France

IN A CONTRIBUTION to the World Power Conference at Vienna last year, Messrs. Preaud and Feraud, when dealing with power for agriculture in France stated that in the country there were still 9,000 water - wheels and hydraulic turbines, 88,000 horse-gins, and 2,800 windmills.

The size of the mills varies, but they all stand from 40ft, to 50 it, high, the sails having a span of about 78 ft. To turn the mills to the wind tail-poles are used. In no case does the ladder rest on the ground to steady the mill while running, and although poles are used, the mills pitch, when working, much more than English post mills.

## COMPLICATED CONGRESSIONAL SITUATION Indefinite Delay

In Anglo - American Barter Plan Likely WASHINGTON, July 17 (Reufer) -The fulfillment of the terms of the Ango-American barter agreement may, owing to a complicated Congressional situation, be delayed indefinitely, if a proposal being considered by the Committee is adopted, according to some Congressional leaders.

The proposal, which is supported, by warehousing interests, would require that the cotton to be delivered to Britain in exchange for rubber to the same value should be classified, and graded where it is now being stored, instead at the point of export, as stipulated in the agreement.

The market opened 1/8 of a cent higher for all deliveries as com-'pared with Friday's closing quotations.

In response to advices received from London and New York the ruled steadler with fair buying interest for immediate and forward deliveries being displayed by consumers and dealers.

Although speculators were inclined to operate cautiously, sentiment, nevertheless, was more optimistic due to the fact that American absorption figures for June were generally regarded as very satisfactory. Furthermore, the fair increase in Motorcarproduction for the week ending 14th, instant also was an aiding factor. For the moment it would appear that uncertainties with regard to the fourth quarter quota announcement on the 25th, instant together with possible labour-unrest in U.S.A. did not affect the market.

Closing tone was quiet.

## INSPECTS AEROPLANE PRODUCTION BOMBERS

Sir Kingsley Wood, Secretary of State for Air, inspected the Rootes Airframe Factory at Speke, near Liverpool, and saw very fast bombers—the Bristol "Blenheim"-being manufactured for the Royal Air Force in great numbers on the most modern "progres-"sive production" lines. vital nature of the work upon

This immense factory; which is one of the best equipped and probably the largest of its kind in the world, forms one of the most important units in the "Government Factory" scheme for " the rapid expansion of the R.A.F.

## SUMS UP **JOURNALIST** ASIA'S LEADING

Mr. John Gunther, the American journalist who gave us, a few years ago, "Inside Europe," now follows it with "Inside Asla" (Hamish Hamilton, 12s, 6d.).

Here, as in the previous book, the anthor writes with especial reference to the men who dominate the scene. Japan, for example, is shown to revolve round the Emperor, who is the State, though other people run it." These other people-soldiers, statesmen, financiers—are considered one by one. IMPROVEMENTS

INSIDE & OUT Completely redesigned bodies, in conjunction with entirely new sheet metal treatment, lend an sir of distinction to the new Chevrolet models presented for 1939. And new refinements, inside and out. heighten the safety, comfort and

convenience characteristics of a line already notable in all three of these important fields. " Basic construction restures of the bodies are, unchanged. They are of the unisteel construction in which all-silent all-steel top, steel side panels, cowl and floor pan are welded into a single unit, without

the use of a single nail, rivet. Or screw in a structural cupacity. One of the most striking outward improvements is in the radiator grille and the sheet metal parts adjacent to it and to the hood. the works, and before leaving to The grille is virtually flat across the top, when viewed from the front, but ares downward and back

Major Factor

The new fenders and fender aprous are a major factor in the beauty of the new line. The overall effect is one of substantially greater mass, in contrast with that of the upper portion of the body. This imparts to the car an appearance of lowness, since its mass is concentrated well toward the ground.

New mountings for the headlamps, which are longer and of larger diameter, are provided by pads in the front fender surfaces through which mounting bolts pass. The headlamps are streamlined to harmonize with the lines of the car. . Horizontal and vertical beam adjustment is effected with speed and ease, the adjustment points being above the fender and outside the hood.

Restful Interior The luxuriously restful interiors of the new Chevrolets are replete with features designed to heighten pride of ownership. Wide, deepcushioned seats are upholstered in tone of beige narmonizing with the and trim which the chrome-plated hardware, and touch of colour in the instrument panel, relieve to the proper degree, In the Master DeLuxe series. either breathing back mohair velvet or a quality broadcloth resembling Bedford cord is available. ## CONFIDENTIAL FILE FOR COURT

#### Woman Banishee Remanded

Five men were sent to prison for teturning from banishment by Mr. Justice R. E. Lindsell at the Criminal Sessions yesterday, while the case against a woman, who was also charged with breach of a deportation order, was adjourned until to-day for a confidential file to be brought into Court.

Mr. J. B. Prentis, Assistant Crowr Solicitor, who prosecuted, said that in the case of Yip Sze, the woman, it was a confidential banishment, A child had disappeared with defendant over the border, and she was suspected of kidnapping. She was banished for life in March 1937 but had returned to the Colony five times.

In answer to His Lordship, accused said there was no reason to suspect that she was a kidnapper.

"My own son was lost," she said, "and the Government officers did not do their duty properly for the recovery of my son. I lost my son when I was living at No. 91 Austin Road, ground floor. I was ill in the Kowloon Hospital at the time. and my son was kidnapped by a man named Wong Chung-sin. made a report to the Yaumati police station."

#### DID NOT KNOW LAW

Yip said she had not told this before because she was not conversant with the law. She said that she had on this occasion been advised by a European lady.

Mr. Prentis told His Lordship! that the lady was the wife of the Rev. F. Short, who gave sewing lessons at the prison.

His Lordship adjourned the case till to-day so that the confidential file could be produced.

Other returned banishees who were charged yesterday were Tsang Sang and Ng Ting, who were sentenced each to four years' hard labour, Yau Sang, alias Li Sang, and Li Fuk, alias Wong Hing, who were each sentenced to three and a half years' hard labour, and Lo that she had brought any men Choi, whose sentence was three friends into the house. years.

## Two Defence Witnesses Disbelieved By Court

That the evidence given by two witnesses for the defence in the case in which a Police Reservist, Lam Fong-loong, residing at No. 56, Belchers Street, was summoned by Ko Siu-wah for desertion and maintenance, were lies so flagrant and obvious that the". Court could not believe them, and that such false allegations left no remedy for the complainant to clear her name, was the comment made by Mr. M. A. da Silva, for the prosecution," when the hearing was concluded before Mr. R. A. D. Forrest at the Central Court yesterday,

At the previous hearing, Tam Yeung-yam, defendant's mother, that the complainant had brought her, men friends to the house. She had seen Ko embracing them in the room, and further alleged that she had seen Ko in bed with the

Lam Ho-po, elder sister of the defendant, also gave evidence of a similar nature.

At yesterday's hearing, Lam Ho-Silva. She said that behind Ko's in their possession on the probedroom there was a small store room and admitted that anyone wishing to go to the store room would pass Ko's "bedroom, which had no door.

Mr. Silva — Do you now seriously suggest that in "that room, which is more or less a. public thoroughfare, your sister-in-law misconducted herself?-But the people in the house seldom pass that passage to look into her bedroom.

You saw it with your own eyes?-

You were surprised?-I was. Would you agree with me that if she had fommitted adultery in Solicitor, prosecuted. a hotel or boarding house, neither Ng Shu-kan, Wong Ping and your mother nor you could give Wong Yan, were each sentenced to evidence against her—Yes.

Witness denied that she had invented the story, but admitted it out to Leung To, Keung Lun, Tsang was the only occasion she had seen such a thing.

Ko Siu-wah, complainant in the case, was recalled. In the witness box she told the Court that what the witnesses had just told were lies and that she hoped that they would be punished for the defamation of her character,

Asked by Mr. Silva, she denied

She told the Court "that the store room behind her bedroom there was kept articles for daily

#### SAW DEFENDANT

Complainant's sister Nora Ko. said that on several occasions she saw the defendant in the China Det.-Sergt. W. J. Wall and Sergt Emporium Cabaret." Lam was seen particularly dancing with a taxidancer, Lau Mui-mui.

Witness said that on July 8 she saw the defendant dancing with Lau Mui-mui and at the conclusion of the dance he walked to the table with the girl. Defendant was in evening clothes.

After further evidence, Mr. Formen who have volunteered for rest found that the charges for desertion and neglect of maintenance proved.

Defendant was ordered to pay \$10 a week for Ko's maintenance and was ordered to pay \$150 costs.

#### FALSE ALLEGATIONS

the case, remarked that it was fortunate that the false allegations sening. were made against his client under the privilege of Court proceedings. He strongly stressed the fact that the lies, which were so obvious had cast some shadows Wing Wah on complainant's character against which she had no remedy to clear herself.

#### BODY NOT YET RECOVERED

"The body of Pilot Officer H. D. Bryan-Gower, one of two RAF members who were killed in the tragic plane crash in Tytam Bay last week, has not been recovered. The search will not be relaxed. The sunken plane has not been

raised. It is understood that an inquiry into the accident will shortly be

# WORLD BEATS

#### Polo For Princes' Challenge Shield

LONDON, July 5-In the annual match for the Indian Princes' Challenge Shield, The World beat India by seven goals to six after extra time at Hurlingham. Queen Mary watchd the match: "

India, according to the handicap, were four goals the stronger side, but their opponents showed that by vigorous execution of a sound tactical scheme such an advantage can be surmounted.

Their tactics were to treat their No. 1 as their scoring unit, and to concentrate their combined efforts on giving him all the scoring chances possible; Guinness confining himself, with one brilliant exception, to defensive tactics, and the other, two combining in attack to make scoring openings for Robinson.

India played a less scientific game, relying on individual dash the Tigers and the scoring powers of Prithi Singh. There was very little in betts. it so far as scoring went, for there was never a margin of more than a goal in favour of either side, but The World were certainly playing the better polo throughout, and fully deserved their

Horsburgh Porter and Hamilton Russell were always in close touch to back each other up in attack, following is the latest call-over and the former, after playing hardworking and unselfish game for six periods, had the satisfaction of scoring the winning goal by a cool and rapid individual dash. Robinson took all his scoring chances, frequently outriding the opposing back, and hitting four goals; all of them good ones, and one in the fifth period being scored with a great shot from 100 yards range.

The play of India had brilliance without cohesion. Prithi Singh was their best player, and scored three goals but he could have been worth still more to his side if he had played more to Butler, who was Hamilton Russell, always in a position to take Guinness. attacking chances, but was not given them.

M. Horsburgh Porter, Hon. J. Jaipur.

### AUSTIN'S POOR **DISPLAY**

### Wimbledon Crowd Disappointed

LONDON, July 5. - englands's hopes at. Wimbledon were rudely shattered yesterday when H. W. Austin the No. 1 seed: favourite for the title, and the only surviving home player, went out in the 5th round of the men's singles championship to E. T. Cookeythe third seeded American, by the disappointing score of 6-3, 6-0, 6-1.

Debacle was not the word for it. A packed centre court crowd watched it almost in silence Indeed, there was little to cheer. The American was all that had been written about him as regards proficiency. There was nothing brilliant about his game. He merely suited the stroke to the occasion, and everything was just as it should be according to the text books except the opposition.

Austin was foot-faulted in his second service game—the fourth of the match. Although he subsequently took up his stance; six inches behind the baseline to serve, he continued periodically to come under the ban of the footfault judge.

So far as could be seen from the Press box, the judge made his decisions with the strictest. impartiality. In fact, Austin's swinging foot told a tale. Austin in form does not foot-fault. His Continued on Back Page

#### ALL-AMERICAN FINAL CAME

## Riggs' Walk Through Puncec: Cooke's Fight With Henkel

LONDON, July 6 .- It was America's day in the Centre Court 'all right—and it really is astonishing that R. L. Riggs and E. T. Cooke should win through to the final round of the singles championship at their first Wimbledon. In the past it has needed giants like Tilden and Vines to win at their first attempt; but yesterday these two young members of a new and almost unrecognizable American school quietly extinguished the hopes of Europe, as represented by F. Puncee and H. Henkel, and since Riggs apparently has beaten Cooke 12 times running at home the assumption must be that he will succeed Budge to-morrow. A Riggs-Henkel fimal would have had a more exciting ring about

There can "rarely have been two more contrasting singles semi-finals than yesterday's. Henkel at least made a grand fight of it, and had the luck been his way might well have carried it into a fifth set; but if this was the best match of the whole meeting, Riggs and Puncec then came in to play what was certainly the dullest, and since there is so little worth recording it can be dismissed straight away.

One had imagined that Riggs rush for the tea tents during a would need his volleys and he has match of this importance. The them—to break up Puncec's rallies were longish and colourless. He struck an attacking length straight away, and but for a brief show of fight Henkel was as powerless in the first set as Austin had been. Yet Henkel did get his teeth into it in the second set. Cooke began to make some

human mistakes, to the extent, even, of a double fault or two, and but for several net-cords at vital points there were at least makings of another story. Broadly. Henkel's forehand drive, made with a swinging wrist, was never sufficiently well controlled for him to deliver a forcing stroke, and Cooke's play down his backhand line was so adroit that the was making his man lunge out in a

zest; in fact he wore an almost defensive, air, and it was Cooke who did the volleying, rarely making n kill first time, but placing the ball so efficiently down the Cooke, with no flourish about his middle that Henkel could not pass.

#### VITAL THIRD SET

There were of course, some glorious backhand passes from Henkel, just as Cooke, in an eddying wind, used the 100 with serenity. The whole matcu, one felt, turned on the third set, in which both men were at it hammer and tongs and we had some wondrous.

There was then a finer edgeabout Herkel's game, but he also had more loose ends, so to speak-Cooke had none at all: everything: was calm and controlled, right out of the text-book, and it look a real winner to beat him. He gave us an object-lesson in length, and having taken the third set from 4-all, he was always winning the fourth when Henkel somehow refused a chance of going to 3-1.

Had Henkel then showed the

## Tribute To Canon Carnegie

MEMORIAL

The Prime Minister recently unveiled the memorial to Canon W. H. Carnegie, chaplain for 20 years to three successive Speakers of the House of Commons, and the husband of the Premier's stepmother.

The memorial took the form of a tableterected by past and present officers of the House of Commons in St. Margaret's Westminster, of which the Canon was rector.

Mr. Chamberlain was accompanied by Mrs. Chamberlain. Among others who attended were canon Carnegie's widow, who was previously maarried to Mr. Joseph Chamberlain, the Archbishop of Canterbury, and Viscount Ullswater, the first Speaker to whom Canon Carnegie was appointed chaplain.

Mr. Chamberlain recalled" that his friendship with Canon carnegie began long before his association with the House or with St. Margaret's. It went back to the time, 10 years before the Great War, when Canon Carnegie came to be Rector of St. Philip's, at Birmingham.

"There, in close association with his great friend, the late Bishop Gore, first Bishop of Birmingham, he soon acquired a very widespread beneficent influence. His work in rescuing lads from blindalley occupations and founding clubs for boys, and girls was a magnificent contribution to the social-welfare of the city.

Family Association

"In 1913, Carnegie removed to London on being appointed Canon of Westminster and Rector of St. Margaret's In the same year he was married to my father's widow; and so naturally after that our association became a great deal closer, and I was a freguent visitor his house in

## Beauty Spot On Sussex Coast

#### NATIONAL TRUST PRESERVATION

LONDON, July 18 (BWS) - A further large area of the South Downs at Birling Gap, 'a beautyspot on the Sussex coast will, it is hoped, be preserved for the public as the result of action of the National Trust. Already in that area some large tracts of land have been preserved.

In 1931 approximately 470 acresof down and farm land, including: part of the Seven Sisters Cliff. were bought by public subscription and vested in the "National. Trust.

In 1934 further land was acquired nearby and more recently a greater part of the area has been permanently preserved by the coming into operation of the Hailsham Planning Scheme.

Some £6,000 will, it is understood be expended on the new acquisition of land for trust. Its area exceeds 160 acres. Regarding a further area of

about 172 acres adjoining, it is proposed to deal with it by agreement providing that no development, other than for agriculture or golf, shall be permitted.

## PREMIER'S STATEMENT ON TOKYO TALKS

LONDON, July 18 (BWS)—As a result of the meet-. ing in Tokyo on Saturday between the British Ambassador, Sir Robert Craigie, and the Japanese Foreign Minister, Mr. Arita, as the first of the series in the negotiations for a solution of the position which has arisen concerning the British Concession at Tientsin, there was great interest in the House of Commons yesterday afternoon on the subject.

Answering these questions, the Prime Minister made the following statement:

"As stated in an official communique issued in Tokyo, the Japanese Minister for Foreign Affairs and His Majesty's Ambassador in Tokyo met on July 15 at the former's official residence and held a friendly discussion on the general questions forming the background of the situation which has arisen in Tientsin. The interview was adjourned to give time for a further consideration of the issues raised.

"The date for the official open ing of the negotiations at Tokyo on questions arising out, of the situation at Tientsin has not yet been fixed.

NO REVERSAL OF POLICY

"There have been many statements in the press, both in Japan and in this country, that the Japanese Government will require a fundamental reversal of the Far Eastern policy of His Majesty's Government as a condition of the opening of the negotiations.

"I should like to make it clear that this country would not, and could not, so act in regard to its foreign policy at the demand of another power, nor has His Majesty's Government received any such demand from the Japanese Government.

"In the opinion of His Majesty's Ambassador at Tokyo, the Japanese official attitude would be more correctly described as a desire that Great Britain should endeavour to regard the Sino-Japanese hostili ties with a more understanding of Japanese difficulties and of the Japanese side of the case.

"His Majesty's Government share the Ambassador's view that to attribute to the Japanese Government intentions which may found to have no basis, in fact, would only be calculated to prejudice the success of the forthcoming negotiations.

TOKYO, July 18 (Reuter)—An SOS message was picked up 13 hours ago from the Nippon Yusen Kaisha liner Bokuyo Maru (8.619 toms) reporting that she was on fire in the mid-Pacific since when nothing has been heard.

The Bokuyo Maru had on board

eight passengers and a crew of 102 and was carrying a cargo of Childean nitrate. Her position was believed to be about 1,000 miles east of Choshi and 875 miles from the Japanese coast. Transocean reports from Tokyo

that a message from the Bokuyo Maru stated that the steamer caught on five after an explosion and was sinking. An earlier Reuter report stated

that the Japanese vessels San Pedro Maru, Florida Maru and Nippon Maru, among others, were proceeding to the scene.

The Bokuyo Maru was built in 1924 at Tsurumi. She is 445 feet in length, 58 feet breadth and 32 feet depth.

The Bokuya Maru was bound for Hongkong where she was due to arrive on August 17.

## NEUTRALITY ISSUE IN AMERICA

## PRESIDENT ROOSEVELT'S DETERMINATION

WASHINGTON, July 18 (Reuter)-President Roosevelt and Mr. Cordell Hull, U.S. Secretary of State, conferred with members of the Congress at White House yesterday regarding the neutrality legislation.

It was authoritatively stated that no decision was reached, but Senator Berkley, the New Deal leader, told reporters that he believed that the Congress would not deliberately adjourn in the face of an overwhelming duty to be performed.

This was taken as indicating that President Roosevelt intends to make another move. to force the Senate to consider his neutrality policy.

According to the "New York Daily News" President Roosevelt intends to discuss the question of removing the arms embargo in one of his celebrated fireside chats the nation later in the week.

BALANCE OF FAVOUR

In the meantime, some observer here are taking the line that under the existing act, the balance favour is on the side of the Democracles rather than on the Axis.

The argument is that while in the event of war the ban

on the sale of arms would be enforced. Britain and France would be able to buy any other supplies. This would not apply to the Axis, it is argued, since the latter has no money available to pay for purchases.

As it is estimated that 75 per cent, of British and French purchases are likely to be materials other than arms and planes, it is contended that the existing act will only mean a reduction of 25 per cent. in advantage which the Democracies will in any case have over the dictator countries.

" " JAPANESE " EMBARGO " The possibility emerged yesterday that despite previous denials. Senator Pittman's "Japanese Embargo" resolution might prove the lever whereby reconsideration of the neutrality legislation could be secured.

Senator Gillette, whose vote last week shelved the neutrality issue in the Senate Foreign Relations Committee yesterday stated that he favoured an embarzo on war materials to Japan.

#### Encirclement Move By Japanese In Shanghai

LONDON,, July 18 (Reuter) -In the House of Commons yesterday,: Mr. Day (Lab) asked the Prime Minister for particulars of the protest lodged by the British authoritles with the Japanese authorities regarding . the encircling of three Britishownd factories on the north bank of Soochow Creek with barbed-wire barricades.

Mr. Butler replied that, according to Viscount Halfax's informatwo British factories were affected, namely, the Zoong Sing Mill and the China Car and Company's premises, with a Chinese mill under Japanese management

Wired Off and similar measures had been adopted at the premises of the China Car and Foundry Company.

The British-Consul-General in Shanghai had made written and oral representations to his Japanese colleague, and had pressed for permission to rebuild the wooden bridge which. had formerly existed, and which, if was understood, would not interfere with traffic on the Creek.

The market opened with prices unchanged for all deliveries compared with Saturday's closing quotations. ... Dull and quiet conditions prevailed during the day due to the

fact that the Rubber Exchanges in London and New York were closed on Saturday last.

"There were some enquiries for "actuals" by consuming centres in evidence, but buying for trade and speculative accounts was negligible, operators preferring to await further developments in London and New York before entering into new engagements to any larger extent.

Later in the session prices registered a slight decline of 1/16 cent for all deliveries due to some liquidation on a narrow market.

In view of further steady business-expansion in U.S.A. such as highly satisfactory tire replacement sales in June etc. authoritative Rubber-circles in New York confidently anticipate higher markets in due course of time.

Market very steady. The United States and Home trade bought. Turnover satisfactory.

Rubber stocks held in the United Kingdom showed a decrease of 812 tons for the week ending July 15, 1939.

### NEW YORK COTTON

The market eased on lower Liverpool advices, liquidation and hedging. Favourable weather reports also constituted a market factor.

### NEW YORK BUBBER

This market advanced sharply on heavy buying, combined with the advance in Securities.

#### CHICAGO WHEAT

Weak cables were responsible for the decline in wheat prices and resulted in a certain amount of selling. The increase of nearly 20,000,000 bushels in the visible supply failed to affect the market as seriously as might have been expected. Canadian growing conditions continue to be very good.

#### IAPAN IS SHORT OF IRON

Boston-Shortage of steel and other metals in Japan is tending to hamper that country's extensive shipbuilding programme, according to Harold P. Smith, New England manager of the United States Bureau of Foreign and Domestic Commerce. Considerable scrap metal that is taken from Boston to Japan is said to be used in steel that goes into ships.

Estimated needs of iron ore "in Japan this year amounts to 7,500,000 tons, compared with production of 2,600,000 tons, Mr. Smith declared. Of the 5,000,000 tons of imported ore needed, not more than 1,800 .-000 tons can be obtained from Malaya, he said. French Indo-China and the Philippines may supply more than formely but the mines in Central China, which normally supply 1,300,-00 tons, will probably supply much less than that amount, while shipments from North China this year are not expected to exceed 1,400,000

#### WEEKLY WHEAT REPORT

REYNOLDS AND GIBSON (Per Payne & Co.)

Liverpool, July 4. London.-Our market has again been very steady with scarcely any change in quotations. The quietness which has prevailed ever since the barter deal became a possibility has been accentuated since the signing of the agreement between the governments of the U.S. and the U.K. The Senate endorsed the terms of the agreement last Wednesday but until the International Rubber Regulation Committee meets to consider what action it will take to release the necessary supplies, it does not look as if much business will be transacted in our market. In the normal course of events the LRRC. is due to meet three weeks to-day, the 25th, inst., when the quota for the October-December quarter will have to be considered. Under the terms, of the agreement about 80,000 tons will altogether be acquired by the U.S.A. Government and, on the face of it, it would look as though a 10 per cent, release will be necessary for about six months in order not to disturb the functioning of the regulation scheme" for commercial puris thought delivery to the U.S. will commence round about October, and this reserve stock when finally accumulated will, if not meanwhile disposed of by reason of a major, war occurring, be held for a period of seven years from the date on

which the agreement comes into Shipments from Malaya for the month of June are returned as 31.541 tons compared with 42,214

tons during May. The following are taken from the May issue of the I.R.R.C.'s Suyocs ...... 3,000 Ps. 0.121 Statistical Bulletin:—

World Shipments:-May 1939, 70,587 tons; April 1939, 73,865 tons (adjusted): May 1938, 65,152 tons

(adjusted) World Absorption:-May 1939, 84,988 tons; April 1939, 85,956 tons (adjusted); May 1938, 477,626 tons (adjusted).

World Stocks and Afloats:-May 1939, 397,748 tons; April 1939, 403,-824 tons (adjusted); May 1938, 456,472 tons (adjusted).

As mentioned last week, until more concrete details are available, we do not look for much movement in prices in either direction.

Movements of Rubber in London and Liverpool for week end-

London:-Landed, 582 tons: De-Value of Gold from all sources livered, 804 tons; Stock, 42,376 tons; Last year, 60,654 tons Liverpool:-Landed, 1,074 tons: Delivered; 615 tons; Stock, 21,234

tons; Last year, 31,806 tons.

been fluctuating within a range of about 10 points but without any decided trend. Factory, interest has shown some slight improvement but the disturbed state of affairs in Europe and also in the Far East prevents a steady business from taking place, and we do not think there will be much change until it is seen exactly how the barter plan will be worked out

#### CHINESE CUSTOMS **PROHIBITIONS**

SHANGHAL July 18 (Int'l)-The Chinese customs is enforcing the prohibition of imports on eighteen commodities including foreign liquors, cigarettes, marine products, silk goods, toilet articles. toys," fruits, canned provisions, lumber, paper, bamboo manufactures, fuel liquid unless a permit is granted by the Ministry of Finance in Chungking.

By strengthening the import restriction, the National Government intends to reduce China's imports by \$230-million a year.

This is the third measure adopted to improve China's foreign trade balance. The first measure was the foreign exchange operation conducted by the stabilization of the Chinese national dollar and the second. measure was the partial moratorium declared by the local Chinese banks,

#### JAPANESE CEMENT NOT WANTED IN SINGAPORE

SINGAPORE July 18 Int1)-Prices of Portland cement here are likely to rise as it is to be used in construction works in place of Japanese cements in spite of its lower prices. The quality of Japanese cement is poor.

The consumption of Portland cement in Bingapore during June is estimated to be more than 16,500 bags.

THETIS INQUIRY: DIFFERENCE OF OPINION DISCLOSED

MEN ALIVE AFTER 33 HOURS

LONDON, July 19 (Reuter)-At yesterday's resumed inquiry into the Thetis disaster, "the Morsey Harbour Board Salvage Officer, Capt, Hart, described two attempts to take off one of the stern covers-

He said that after the second attempt the Thetis began to cant slightly and he considered it inadvisable to remove the plates. Capt, Hart then told of a

difference of opinion between himself and Capt. Nicholson, Commander of the Destroyer Flotilia, regarding the best steps to take. Capt. Nicholson suggested

attempting to "raise the Thetis higher and cutting a hole and Capt, Hart replied that he would not agree to the suggestion, but would carry it out if Capt. Nicholson insisted. Capt, Hart said that by 3.10 p.m.

on June 2 the stern of the Thetis began to rise. It then began to cant and swung round faster than before and began to sink as soon as it was turned in line with the tide and then the wire parted.

Faint Tapping In the course of yesterday's evidence it was revealed that the men were still alive thirty-three hours after the dive, when diver stated that he heard fain tapping at midnight on June 2.
